The account management fee is calculated on the basis of the market price of the securities, which is the last known closing price for domestic and foreign listed shares, bonds and mortgage bonds; for Hungarian government securities, the last known net asset value calculated according to the Government Debt Management Agency's reference yield; for investment units, the last known net asset value. If the market price is not known, cannot be determined or is more than one year old, the nominal value of the securities concerned shall be the basis for calculating the fee. In the case of foreign currency instruments and foreign exchange, the holdings are converted at the current official MNB exchange rate and the account keeping fee is always charged in HUF.

The Company does not charge a fixed fee/portfolio fee in the event that there is no balance of securities, other financial instruments or cash in any of the accounts or the aggregate balance of these assets is negative. Account keeping fees and postal charges are due on the last calendar day of the month. The fixed and portfolio fees calculated on the holding(s) of the Long-Term Investment Account are debited from the standard customer account.

### 11) Other

Dividends, yields, interest and other benefits paid in cash on foreign securities are paid to the Customer, as a rule, on a net basis, in accordance with the relevant Rules of KELER Zrt. For the calculation of the net amount, the foreign account manager uses the highest tax rate according to the general current practice, thus the amount less the tax calculated according to this tax rate is paid to the Customer. The Company shall have no duty or responsibility to deduct and reclaim the excess tax. Please note that foreign custodians do not take Hungarian tax rules into account, therefore it may happen that tax is deducted in excess of the tax rate prescribed by Hungarian law, or that dividend tax is charged on securities deposited in a Long-Term Investment Accounts. Only the customer may initiate a claim for the refund of tax in excess of the tax rate provided for under Hungarian law with the issuer or the tax office of the country where the tax deduction was made. Erste Befektetési Zrt. is not entitled to reclaim the tax and therefore cannot provide any assistance in this regard. In such cases, please contact a tax advisor.

In addition, please note that dividends income from shares that are not listed on a stock exchange in any EEA Member State is subject to additional Social Welfare Contribution Tax.

If a separate fee or transaction tax is charged by the relevant stock exchange in the context of the brokerage transaction (e.g.: the exchange fee charged by the LSE for orders executed on the London Stock Exchange), this charged fee or transaction tax will also be debited from the relevant account of the customer with Erste Befektetési Zrt.

In the case of certificates and warrants concluded on a foreign stock exchange, the fee charged by the custodian in connection with the termination of the securities will be debited from the relevant account of the customer with Erste Befektetési Zrt.

<sup>&</sup>lt;sup>11</sup> The real time data fee won't be charged in a month, in which at least 1 transaction on Xetra Frankfurt market is executed via Erste's trading system.

<sup>&</sup>lt;sup>12</sup> The real time data fee won't be charged in a month, in which at least 1 transaction on US market is executed via Erste's trading system.

<sup>&</sup>lt;sup>13</sup> The relevant fee should be understood per account type

# III. Transaction fees and settlement dates of investment funds

The funds per transaction minimum buy amounts are the following: HUF 500 / EUR 5 / USD 5. If the fund's prospectus declare a higher minimum buy amount, in that case, that amount will be applicable.
